WONDERFUL JAPANESE IRIS

The Japanese Iris is quite distinct from the Garden Iris. The blooms are perfectly flat when open measuring six to ten inches in diameter; one large clump often produces as many as thirty-five or forty bloom stalks. The flowers of pure white, lavender pink, dark purple, maroon, violet, plum marvelously pencilled and striped, are excellent for home decorations and are deep enough to last from a week to ten days, coming out as do the Gladioli until each bud has opened. No up-to-date garden should be without a goodly number of these exquisite Japanese Iris. At our very low price, you should order at least a dozen.
